SUBJECT: Annual Reports to the President's Foreign Intelligence Advisory  
Board

Although you have not previously been directly involved in the preparation of annual reports to the PFIAB, I have included you as action recipients of the attached letter which provides updated guidance to the intelligence community.

We recognize that each of you is involved in foreign intelligence activities in a manner which is different in scope and magnitude from other United States Intelligence Board principals. Nonetheless you make important contributions and we believe they should be reflected in the annual report to the Board.

PRESIDENT'S FOREIGN INTELLIGENCE ADVISORY BOARD

May 8, 1974

MEMORANDUM FOR: Director of Central Intelligence  
Director, Federal Bureau of Investigation  
Director, Bureau of Intelligence & Research, State  
Assistant Secretary of Defense (Intelligence)  
Assistant General Manager for National Security, AEC  
Special Assistant to Secretary of the Treasury for  
National Security  
Director, Defense Intelligence Agency  
Director, National Security Agency  
Assistant Chief of Staff for Intelligence, Army  
Director of Naval Intelligence  
Assistant Chief of Staff for Intelligence, Air Force

SUBJECT: Annual Reports to the President's Foreign Intelligence Advisory Board

Since 1964 a number of intelligence community components have been submitting annual reports to PFIAB. These reports have served to document the progress of individual organizations and proved to be extremely helpful to the Board during the years when there were few constraints on the development of new and better ways for collecting and disseminating intelligence. Resource limitations and the special emphasis which the President has placed on centralized direction for the intelligence community by the DCI now dictate a different approach.

Commencing this year we are cancelling the requirement for individual annual reports to the Board and, on an experimental basis, asking the DCI to submit a single, integrated annual report. This report will provide an overview of community trends and developments, a discussion of major problem areas, and will include a uniform community-wide statistical data base for manpower and funds. There will be separate sections for each intelligence community component. Addressees should expect to hear from the DCI in the near future regarding the content and timing of their contributions to the annual report to the PFIAB.

Notwithstanding this effort to consolidate annual reporting requirements, I want to re-emphasize to the members of the intelligence community that direct and privileged communication with the Board on matters of major concern is encouraged and that we will continue to invite agency heads and program directors to meet with the Board in plenary session.

Attached is a copy of Admiral Anderson's 8 May memorandum to the heads of all Intelligence Community components concerning the PFIAB's desire to have the DCI submit a single, integrated annual report to the PFIAB in lieu of the separate reports previously provided by the various Community components. This is the note I discussed at the 16 May meeting.
